Decorative

# Expressions

- Our coffins are all Australian made and are created from our own locally sourced, plantation pine fibreboard (commonly referred to as 'MDF' or 'Customwood'), which is a sustainable, renewable resource.
- Our Crystal Clear high-resolution image wraps are produced using environmentally-friendly, water-based inks, and the technology has been recognised as an industry leader in environmental certifications and awards.
- The handles will be clear so the picture won't be interrupted.
- When you purchase one of our coffins, a memorial tree will be planted on your behalf. This special tree will be planted by a non-profit group dedicated to the reforestation, maintenance and protection of trees in Australia.

# White Wicker

Our natural and eco-friendly 'White Wicker' is made from a variety of organic materials. The art of wickerwork takes its heritage from the ancient craft of basket weaving. A simple design with durability, the 'White Wicker' is tightly hand woven by our local craftsmen in Indonesia using traditional methods passed down from generations.

# Banana

Local craftsmen in Indonesia collect only the mature leaves from the banana and pandanus plants in the wild so that it continues to regenerate. The dried, sustainable fibres are then hand twisted and braided into a rope. This is skilfully woven over the casket frame to create an elegant two tone wicker contrast.

# Pandanus

The 'Pandanus' is the marriage of the 'Banana' with the 'White Wicker'. It combines the elegance of a two tone contrast, braided with dried sustainable fibres. Together with the durability of Wicker, this is a popular and eco-friendly choice.
