The Palmdale Group has modern audio visual systems in all our chapels which
will be operated by a chapel attendant on the day of the funeral service.

Video, PowerPoint and music files can be played through either a CD player, DVD player or
on an Apple MacBook Pro, using either Windows Media Player, QuickTime or Apple iTunes.

We strongly recommend you book a time at the appropriate location to test your
audio/visual, to ensure there are no issues on the day of the funeral service.
Testing at least the day prior will allow time for any amendments you might like to make.

Please call the number below to make an appointment for testing:
